PROFESSIONAL SUMMARY

Third-year BSc (Hons) Computer Science undergraduate at SLIIT with academic team experience in full-stack web applications, backend integration, distributed systems and cloud deployment. Contributed to student service workflows using React, TypeScript and Spring Boot. On a restaurant microservice project, improved Docker and MySQL readiness, added Kafka checks to CI, supported secure Azure deployment, and validated reservation flows. Comfortable with collaborative Git workflows, database design and troubleshooting. Seeking a software engineering internship.

Led an academic test automation and quality pipeline project, integrating team-owned test suites, enforcing code quality and coverage gates, and automating CI reports. Also interested in frontend, backend, QA and test automation, and DevOps internship opportunities.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

BSc (Hons) in Computer Science | 2024 – Present | Year 3, Semester 1

Richmond College Primary & Secondary Education | 2010 - 2023

G.C.E. Advanced Level (Physical Science Stream)

Combined Mathematics – S, Chemistry – S, Physics – S, General English - A

G.C.E. Ordinary Level (9 A Passes)

ACADEMIC ENGINEERING PROJECTS

UniStay Boarding Management System

Academic Group Project | Group Leader

- Contributed to student and administrative workflows for booking, food ordering, cleaning, maintenance and feedback.
- Integrated React and Spring Boot features with MySQL; resolved backend security, configuration and connection issues.
- The application was deployed using Railway and Netlify.

React TypeScript Spring Boot MySQL Railway Netlify

Distributed Payment System

Academic Team Project

- Collaborated on a failure-tolerant distributed transaction system for atomic payment validation across nodes.
- Worked on feature integration, branch changes and code reviews within the team Git workflow.

JavaScript Golang Git & GitHub Distributed Systems

Salon Sanaru Management System

Academic Team Project

- Worked on a management platform for bookings, service allocation and customer records.
- Contributed across requirements, implementation and testing in an academic team.

Java Spring Boot MySQL React

TECHNICAL CAPABILITY

LANGUAGES
Java, JavaScript, TypeScript, C, C#, C++, HTML5, CSS3, Python, Go (Golang) , SQL

FRONTEND DEVELOPMENT
HTML5, CSS3, React, Vite, Tailwind CSS, Bootstrap, Zustand, React Router, Axios

BACKEND & APIs
Spring Boot, ASP.NET Core, Hibernate, ADO.NET, Node.js, REST APIs

DATABASES & STORAGE
MySQL, PostgreSQL, SQL Server, Azure Blob Storage

AWS CLOUD
Amazon EC2, Amazon S3, Amazon ECS, Amazon ECR, Amazon VPC, AWS IAM, AWS Elastic Beanstalk

AZURE CLOUD
Azure Container Apps, Azure Container Registry, Azure SQL Database, Azure Functions, Azure Monitor, Azure CLI

DEVOPS & DEPLOYMENT
Git, GitHub, GitHub Actions, CI/CD, Docker, Docker Compose, Nginx, Linux, Bash, PowerShell, Railway, Netlify

TESTING & QUALITY
xUnit, JUnit, Selenium WebDriver, Postman, Swagger/ OpenAPI, Apache JMeter, ESLint, SonarQube

ARCHITECTURE & ENGINEERING
Apache Kafka, Microservices, Distributed Systems, Event-Driven Architecture, Design Patterns, SOLID Principles

GAME DEVELOPMENT
Unity, C# Scripting, Unity Physics, A* Pathfinding

DEVELOPMENT & COLLABORATION TOOLS
VS Code, Visual Studio, IntelliJ IDEA, MySQL Workbench, GitHub Projects, Jira, Figma, Maven, Gradle, npm

LEADERSHIP & EXTRA-CURRICULARS

Student Prefect Board | 7 Years

Richmond College

IT Club Board Member | 5 Years

Richmond College

Smart Restaurant Management System - Cinnamon Bistro

Academic Team Project | Group Leader

- Improved Docker/MySQL startup readiness and added Kafka integration checks to the GitHub Actions CI workflow.
- Supported Azure deployment with OIDC and Managed Identity; resolved MySQL schema and deployment issues.
- Validated authenticated reservation flows across the React frontend and ASP.NET Core services.

React ASP.NET Core Docker Kafka Azure

Cinnamon Bistro - Test Automation & Quality Pipeline

Academic Team Project | Group Leader | Code Quality & Metrics | CI Pipeline Lead

- Led an eight-job GitHub Actions pipeline with parallel validation, quality gates and automated reporting.
- Implemented ESLint regression checks, coverage thresholds for 570 existing tests, and 13 coverage-parser regression tests.
- Integrated teammates' unit, browser and performance test suites into CI with ephemeral Docker MySQL environments.

GitHub Actions Docker MySQL ESLint Coverlet ReportGenerator

Facility Breach — Interactive 3D Shooting Game

Academic Team Project | Group Leader

- Implemented physics-based doors, grabbable barricades and interaction arbitration using Unity and C#.
- Integrated gameplay systems into shared scenes and coordinated with teammates' navigation and AI components.
- Performed manual gameplay testing, isolated-scene verification and batch compilation checks.

Unity 6 C# Unity Physics Git & GitHub

Senior Western Band | 3 Years

Richmond College

New Inventors Club

Richmond College

College Scout Troop | 1 Year

Richmond College

LANGUAGES & SOFT SKILLS

LANGUAGES

Sinhala (Native), English (Professional Working), Tamil (Basic)

KEY ATTRIBUTES

Team Sync, Technical Analytics, Presentation, Scope Management, Attention to Detail
